A NEW STANDARD IN POWER TRAINING

Inspired by the movement of road cycling, triathlon and Crossfit® endurance training, the unique design of the IC8 Power Trainer makes it the #1 bike for cyclists and indoor trainer for sports and fitness athletes. Built to feel and ride just like an outdoor road bike, and with greater Power accuracy and wattage than any other indoor cycle, the IC8 Power Trainer delivers superior results for cycle-specific training, Crossfit® endurance WODs, High Intensity Interval Training [HIIT], fitness testing, rehabilitation, and more.

IC8 POWER TRAINER

Inspired by the movement of road cycling, the IC8 is a high-performance indoor cycle for serious riders and a challenging power trainer for all athletes. With greater power accuracy, wattage and performance data than any other indoor cycle, the IC8 delivers superior results for facilities running cycle-specific coaching, high-intensity interval training and endurance training.

- WattRate® Power Meter [direct, +/-1% tolerance]
- WattRate® TFT Computer with polar view
- Coach By Color® intensity guide
- Connect Technology [Bluetooth & ANT+]
- Self-powered generator with LiPo battery
- 300 degree resistance control via dial
- Full cover shroud
- 0 - 3800W magnetic resistance
- Oversized chain with automated tensioning system
- Freewheel drivetrain
- Pro performance handlebars
- Stepless 4-way adjustment of handlebar & saddle
- Off-set frame geometry with 155 mm Q Factor
- Multi hand position, soft PVC handlebar
- Dual-sided SPD compatible pedals
- Padded unisex performance saddle
- Oversized stabilizer bars incl. leveling feet
- Premium protection/stretch plates
- Arc frame access

WATTRATE® POLAR VIEW

+/-1% ACCURACY

WATTRATE® DIRECT POWER METER

WattRate is the market's most accurate power meter and offers a direct measuring tolerance of +/- 1%, and accuracy that is groundbreaking in indoor cycles. The WattRate direct power meter is located at the intermediate transmission and uses photocells to directly measure the torsion [twisting force] of the spindle. The design never requires recalibration and is resistant to external factors such as temperature and humidity.

PRO PERFORMANCE BARS

Road and Triathlon inspired handlebar design incl. drops, hoods and time trial forearm rests

OVERSIZED CHAIN AND AUTOMATED TENSIONING SYSTEM

Oversized and automatically tensioned for durability, performance and reduced servicing.

AUTOMATED TENSIONING

For reduced servicing

4-WAY STEPLESS ADJUSTMENT

For the finest of tuning

155MM Q-FACTOR

OFFSET FRAME

For maximum comfort and performance

ADVANCED BIKE FIT

The offset frame's range and post angles, 155 mm Q-Factor, and 4-way stepless adjustment allows you to set up as relaxed or aggressive as your training dictates.

IC8 FEATURES

FULL-COVER SHROUD

Offering maximum sweat protection and long life

0 - 3800W MAGNETIC RESISTANCE

The 300-degree dial offers 100 clicked increments and displays the resistance level as 0-100 on the WattRate TFT computer

ARC FRAME ACCESS

A striking aesthetic that's also easy to keep clean

USER ASSIST POSTS

Gas assisted handlebar and saddle height for quick and easy adjustment

FREEWHEEL DRIVETRAIN

Emulating the exact performance and experience of your outdoor bike right down to the sound of the bearings and relief of your legs every time you need to stop pushing

SELF-POWERED

A compact generator recharges an integrated lithium polymer battery that powers all electronics

WATTRATE® TFT COMPUTER

Designed by cyclists and built on Linux, WattRate® delivers unparalleled data, performance and connectivity.

Data

Presented over 5 screens, with the orientation of zooming into more data as you scroll, the User Interface keeps life simple whilst offers up over 40 performance metrics. At the end of your sessions view a comprehensive summary of your training including each and every lap.

Performance

A full-color screen with a color changing front LED for coaches. Customizable screen flows, designs and training zone animations provide engagement and motivation during training.

Connectivity

A customised Bluetooth® connection with the ICG® Training App tracks rides and data. ANT+ transmission enables power and cadence connection to a wide range of third party apps.

Compatible with:

BEGINNER

This rider is stomping on the pedals and hasn't yet learned how to move their legs across the bottom or top of the pedal stroke. Their motion is jerky and they are likely bouncing in the saddle when riding over 90 rpm.

INTERMEDIATE

This rider is creating power over a larger range of their pedal stroke and has a smoother pedal action. They are using a larger percentage of their muscles to help produce power at the top and bottom of the pedal stroke.

ELITE CYCLIST

This rider produces power nearly from 12 o'clock to 6 o'clock on the pedal stroke. They are producing power early at the top of the pedal stroke and continue to contribute to their wattage output at the bottom. This rider is "sewing machine" smooth.

WATTRATE® POLAR VIEW

View in real time, and analyze at the end of the workout, detailed data on how you apply force through each pedal stroke and the balance between your left and right leg. Improving pedaling efficiency reserves energy and increases power – ultimately making you faster for longer.

IC7 INDOOR CYCLE

The multiple award winning IC7 combines a modern design with an extended range of top features. The most precise WattRate® Power Meter, Coach By Color® intensity guide for the user and the instructor, maximum user comfort, easy servicing and data exchange with external devices, makes the IC7 a one of a kind Indoor Cycle.

- WattRate® Power Meter (direct, +/-1% tolerance)
- WattRate® TFT Computer with color display
- Coach By Color® intensity guide
- Connect Technology (Bluetooth & ANT+)
- Self-powered generator with LiPo battery
- Magnetic brake system with position sensor
- 300 degree resistance control via dial
- Supported handlebar & saddle height adjustment
- Full cover shroud
- 2-Stage drivetrain
- Stepless 4-way adjustment of handlebar & saddle
- Off-set frame geometry with 155 mm QFactor
- Multi hand position, soft PVC handlebar
- Dual-sided SPD compatible pedals
- Integrated dual bottle holder
- Padded unisex sports saddle
- Oversized stabilizer bars incl. leveling feet
- Premium protection/stretch plates
- Arc frame access

2-STAGE DRIVETRAIN

With an immense 1:11 gear ratio this revolutionary design equipped with ICG's hybrid Poly-V & tooth belt technology is capable of transferring extreme levels of torque smoothly and generates an incredibly fast flywheel speed. Combined, these features create the ultimate connection to every pedal stroke.

Two-stage drivetrain uses one left and one right-sided pulley system to drive the flywheel.

WATTRATE® DIRECT POWER METER

The launch of WattRate® — the market's most accurate power meter that offers a direct measuring tolerance of +/- 1%. Such accuracy is groundbreaking in Indoor Cycles. The WattRate® direct power meter is located at the intermediate transmission and uses photocells to directly measure the torsion (twisting force) of the spindle. The design never requires recalibration and is fully resistant to external factors such as temperature, humidity and transportation.

Uses photocells to directly measure the torsion (twisting force) of the spindle.

300-DEGREE MAGNETIC RESISTANCE

IC7's magnetic resistance is engineering at its best. The limited-to 300-degree dial offers 100 "clicked" increments and displays the resistance level as 0-100% on the WattRate® TFT computer; all at one flick of the user's wrist. This highly precise and visual design means your members will be able to dial into the perfect resistance quickly.

SELF-POWERED GENERATOR

Renewable, green-energy. No batteries required. Capturing the riders energy the compact generator at the flywheel recharges the bike's integrated lithium polymer battery. This makes the bike independent from power grids and costly battery replacements.

A compact generator at the flywheel recharges the bike's integrated lithium polymer battery.

A gas assisted adjustment and over-cam flip levers are incorporated into the offset frame.

"USER-ASSIST" POSTS

The gas assisted posts provide users with a smooth, stepless adjustment range. A system that allows the "athlete" set-up for optimum performance and the "fitness-user" for maximum comfort.

ERGO-FORMED HANDLEBAR

OVER-CAM FLIP LEVERS

SPD-COMPATIBLE PEDALS

PREMIUM PROTECTION PLATES

ERGO-FORMED HANDLEBAR

Featuring the same impressive curves and soft PVC as the ergo-formed handlebar, this wider bar provides larger users more support, additional Time Trial bar-ends, central ride easy position and intelligently integrates the WattRate® TFT computer by not exposing any cables and allowing the consoles position to adjust in-line with the bars.

155MM Q FACTOR

Offers superior biomechanics. Q Factor is the distance between a user's feet when sitting on the bike and pedals. A Q Factor of 155mm makes the Indoor Cycle feel more like a real bike. The benefits include increased safety, comfort, and efficiency in every pedal stroke.

ADVANCED BIKE-FIT

The new off-set frame design and stepless 4-way (saddle height, saddle fore/aft, handlebar height, handlebar fore/aft) slider and post technology offers superior biomechanics, accommodating the widest range of users and allows for the finest of fine-tuning. It's easy and fast.

TECHNOLOGY

LifeFitness
POWERED BY ICG®

An integrated magnetic sensor measures the position of the magnet enabling to display the resistance level (0-100%) on the WattRate® computer. This way the resistance curve will be identical on all bikes.

The resistance lever gives the user tactile feedback and also allows quick adjustment. Located directly beneath the handlebar, the vertical adjustment lever is easy to reach from all riding positions.

MAGNETIC RESISTANCE

ICG's magnetic resistance is engineering at its best. A service-free technology that provides the user a greater resistance range and reduces operational down time and cost.

WATTRATE® POWER METER

The WattRate® Power Meter displays a precise measurement of the user's effort in watts. This precision is achieved by using the patent flywheel run down technology and while riding, a positioning sensor measures the resistance applied to the magnetic brake system.

POLY-V BELT DRIVETRAIN

The drivetrain equipped with Poly-V belt is capable of transferring extreme levels of torque smoothly and its 1:10 gear ratio generates an incredibly fast flywheel speed. Requiring less maintenance, belts save the club owner money and decrease liability. They have fewer breakdowns and make less noise.

"USER-ASSIST" POST

ICG's user assist handlebar post technology reduces the handlebar weight to minimize setup challenges. A system that provides a maximum user comfort.

IC3
POWERED BY ICG®

INCREDIBLE RIDE, INCREDIBLE VALUE. THE LIFE FITNESS IC3 PROVIDES THREE CRITICAL COMPONENTS FOR IMPROVING USERS' CYCLING PERFORMANCE

155mm Q Factor, ergonomic handlebar, and advanced geometry. For club-owners, there's ICG's Poly-V belt drivetrain technology for maximum durability and reduced servicing. Take the IC3 for a ride and you'll be a believer.

- 155mm Q Factor
- High Inertia Flywheel
- Ergo-formed Handlebar
- 4-Way Bike Fit
- Poly-V Belt Drivetrain
- Integrated Dual Bottle Holder
- Aluminum Posts
- Dual-sided SPD-Compatible Pedals
- Premium Protection Plates
- Protection Post Insert
- Oversized Stabilizer Bars
- ANT+ Console (Optional)

IC2
POWERED BY ICG®

AS ICG'S ENTRY-LEVEL CYCLE, THE LIFE FITNESS IC2 OFFERS A SIMPLIFIED FEATURE-SET WITHOUT COMPROMISE ON PREMIUM GRADE MATERIALS, PROVEN ENGINEERING PROCESS AND STYLING.

The IC2 is a rock-solid product, suitable for high footfall commercial use and offers leading industry warranties.

- Poly-V Belt Drivetrain
- Aluminum Posts
- Perimeter-Weighted Flywheel
- Dual-Sided SPD-Compatible Pedals
- Sweat Guard
- 4-way Saddle Adjustment
- Handlebar Bottle Holder (Optional)
- ANT+ Console (Optional)

WATTRATE®

WHY POWER?

Power meter training on Indoor Cycles heralds a new era. Like heart rate monitors that were used by pro riders they soon became mainstream, power meters are now widespread amongst pro riders, are used by many amateur riders and the great news is they have finally made it to Indoor Cycling for fitness.

WattRate® is ICG's technology to measure the user's power output displayed in watts. This performance data can be applied in training programs to maximize workout results.

FTP: ONE NUMBER THAT COUNTS

Functional Threshold Power is one of the key factors of your power cycling armory but what is it? It's generally agreed that FTP is the maximal power output that can be sustained for the duration of one hour, the classic time trial. FTP is the best single marker for fitness in cycling. The higher your FTP is, the stronger you are, and workouts are recorded as a percent of FTP. This means that when your FTP increases, the workouts get harder to maintain the same difficulty.

FUNCTIONAL THRESHOLD (FTP) POWER TEST

WHAT?

A test used to help measure a user's fitness and establish their 5 colored training zones.

HOW?

Every 4 minutes the WATTs target will increase 25 watts, all the rider has to do is "keep it green" for as long as they can.

WHY?

More than establishing the perfect Coach By Color® training zones for your riders, The "FTP (Power) Test" is a highly engaging, rewarding workout. Its unique color guidance and personal challenge has established a new type of class experience, empowering the opportunity of one instructor monitoring and motivating a large group of users to find their own fitness level together.

WHY COACH BY COLOR®

To Coach By Color® is to bring a simple and intuitive form of communication to Group Cycling to improve the riders experience and to achieve their fitness results in less time. The Coach By Color® power program combines accurate zonal training with stimulating color to help coach a member's effort during the workout. Coaching with the addition of Coach By Color® stimulates both a psychological and physiological response. Participants 'go for' greater maximal effort and come to understand the reward of recovery effort. The Coach By Color® system increases the group dynamic amongst members and enhances instructor communication. Simply; Coach By Color® increases social interaction while it maximizes training results, this means members enjoy the process more and reach their goals quicker. Those are the kinds of benefits that boost new-member acquisition and retention.

TRAINING ZONES

COACH BY COLOR® HAS FIVE COLORED TRAINING ZONES: WHITE, BLUE, GREEN YELLOW & RED.

These zones can be linked to WattRate® (Power) and Functional Threshold Power® (FTP), or heart rate and percentage of Heart Rate Max (HRM). FTP represents the workload above which an individual cannot sustain prolonged exercise. Similar to HRM, once an individual's FTP is known, users are assigned the 5 colored zones to accurately coach their effort for the best customized results.

*Training zone values shown as %FTP

MYRIDE VX® PERSONAL

MYRIDE VX® GROUP

ICG® TRAINING APP

YOUR MORE COLORFUL
POWERFUL
PERSONAL TRAINER

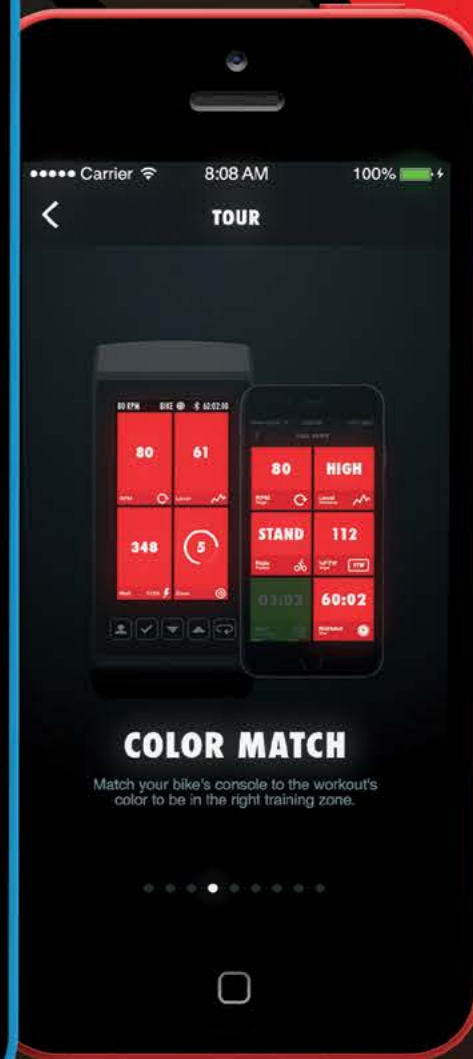

Provide your members with free workouts - endorsed by pro athletes, and designed by ICG Master Trainers - to take their training to the max. Available in the App Store and Google Play NOW!!

YOUR MORE COLORFUL **POWERFUL** PERSONAL TRAINER

Endorsed by pro athletes, and designed by ICG® Master Trainers the ICG® Training App provides free workouts to take your training to the max. Via Bluetooth 4.0 you can now pair your training applications to view, save and track workout history. Select workouts by fitness goal, sport activity or specialist program then match your bike's console to the workout's color to be in the right training zone.

ICG® TRAINING APP USERS CAN SELECT, CUSTOMIZE, SAVE AND EVEN SHARE WORKOUTS BETWEEN FRIENDS.

These same, intuitive features have been designed to empower personal trainers to send workouts to their clients, and group instructors to create or select routines, sync music and playback in their classes. Providing your members with powerful workouts has never been so easy.

- Select workouts by fitness goal, sport activity or specialist program
- Color Match – it's the easiest way to train with power, and guarantees results
- Be the motivator and the motivated by customizing workouts and sharing with friends
- Ready, steady, go - fast user data transfer onto the WattRate® Computer
- Data exchange with external devices - save & track your fitness results after every workout
- Personal trainer? Build and send workouts to your clients to keep them on track
- Group instructor? Make life easier, select ready-to-go workouts or create and store all your routines with synced music on one device

ICG® CONNECT

YOUR CONNECTED CYCLING EXPERIENCE

Introducing ICG® Connect, a digital platform created to deliver data-visualisation and gaming to unite riders by tracking group performance, providing team competition and rewarding group leaders whilst celebrating individual achievement.

ICG® CONNECT.

Unboxed and installed in the studio, Connect devices collectively monitor, manage, and control the group's workout data to drive the connected experience.

- 10.1" HD Touch Screen
- Media Server
- Router / ANT+ Receivers

CONNECTED APP.

ICG® Training adjusts connected bikes to your members' personal settings and identifies them to Connect. Participants can record activity, view results, and share with friends and coaches.

- A faster way to personalise connected bikes
- Personally identifies participants to connect for leaderboards
- Records activity and connects riders to friends and coaches beyond the class

CONNECTED BIKES.

Train smarter with up to 40 performance metrics transmitted every second to Connect, and displayed on the personal computer of each bike.

- IC5 Indoor Cycle
- IC6 Indoor Cycle
- IC7 Indoor Cycle
- IC8 Power Trainer

CONNECTED TRAINING.

Instructors will receive guidance on Connect's Power, Heart Rate and QuickStart training modes to deliver inspired connected classes.

- Live Coach By Color® courses / Online resources
- Pre-designed workouts on ICG® Training

CONNECTED APP

CONNECTED BIKES

FOR A CLOSER LOOK AT CONNECT'S SOFTWARE, OR FOR MORE INFORMATION ON CONNECTED BIKES, APP, AND TRAINING PLEASE VISIT WWW.TEAMICG.COM

THE TECHNOLOGY

MANY COMPANIES BUILD BIKES, AND MANY MORE DEVELOP APPS, BUT ICG® IS THE FIRST TO DESIGN A TRULY INTERCONNECTED USER EXPERIENCE BETWEEN THE TWO.

The users' connected bike computer, the instructor's tablet and the group's large display all mirror the same performance metrics, User Interface (UI) and animations to make coaching and following instruction flawless.

Moreover, the immersive qualities of this interconnected experience drive greater training engagement.

BIKE COMPUTER

INSTRUCTOR TABLET

THE SOFTWARE

MEASUREMENT AND MOTIVATION COME IN DIFFERENT FORMS, THAT'S WHY CONNECT DELIVERS A VARIETY OF PROGRAMS, MODES AND FEATURES TO GET ALL INDOOR CYCLING FANATICS ENGAGED.

All workout options are controlled by the instructor.

THE EXPERIENCE

IN EVERY CLASS, PARTICIPANTS RIDE FOR, WITH AND AGAINST EACH OTHER TO MEET THE GROUP TARGET, WIN TEAM BATTLES AND ACHIEVE PERSONAL BESTS.

Connect technology amplifies the class energy by making it visible and the connected experience brings riders closer to their goals and each other.

myride

RIDE EVERYWHERE ANYTIME

MYRIDE® VX BRINGS YOU THE BEST IN IMMERSIVE, VIDEO-BASED FITNESS PROGRAMING FOR YOUR GROUP CYCLING STUDIO, AND THE GYM FLOOR.

PERSONAL

MYRIDE® VX GIVES OUR AWARD WINNING INDOOR CYCLES A FULL BOOST OF ADRENALINE.

Adding immersive, video-based instruction directly to the handlebar redefines the bike's user experience. Unlike bikes that only offer "exertainment", or bikes that focus on pure performance data, our Indoor Cycles with Myride VX does both, and better; advanced data accuracy, results-orientated coaching, and stunning footage from around the globe.

BENEFITS:

Offer the growing cycling, triathlon, and "athletic-minded" consumer the world's most accurate power-based Indoor Cycle with cutting-edge motivation to strengthen your membership.

Excite and support all your members – beginners to advanced - with the most awarded Indoor Cycle ever, packed with Myride VX's guidance and measurement they need to achieve their goals.

Maximise your club's outreach and marketing with innovative, fun fitness solutions.

MYRIDE® VX
PERSONAL

GYM FLOOR EXAMPLE

*No Audio Visual equipment is required. Headphones not included.

HARDWARE

- 1x TABLET FOR ON-DEMAND VIRTUAL WORKOUT SELECTION
- 1x INDOOR CYCLE TABLET MOUNT

APPS

- MYRIDE® WORLD VIEW
- MYRIDE® STUDIO COACH
- MYRIDE® TOUR COACH

* All apps listed are included with purchase.
 * Future app content releases are excluded.
 * Compatible with: IC4, IC5, IC6, IC7 Indoor Cycles & IC8 Power Trainer.

GROUP

SELECT, PLAY AND CONTROL VIDEO ON A BIG SCREEN FOR GROUP OR TEAM PARTICIPATION.

Instructors can use apps to enhance live training sessions, and facilities can use them to schedule virtual classes online or play on demand. Driving more people through the door more often has never been so simple.

BENEFITS:

Maximize studio and cardio space at off-peak times with world-class, highly motivating virtual workouts without increasing your operational budget.

Group exercise is globally proven to positively impact club acquisition and retention.

Through live video you can virtually expand and enhance your live program to stay ahead of competition.

You'll never have to cancel a class again. The virtual offering is always available with world-class presenters delivering premium programming whenever you cannot get cover.

MYRIDE® VX GROUP

GROUP STUDIO EXAMPLE

HARDWARE

 * Available for all bikes makes and models.

INDOOR CYCLE INTEGRATION

THE FUTURE OF INDOOR CYCLING STUDIOS

Technology is driving Indoor Cycling, and will continue to affect the future of not only cycling, but the fitness industry as a whole. At ICG® we are already implementing the first of many phased solutions to keep your studios ahead of the field.

ALL OUR MYRIDE VX "VIRTUALLY INSTRUCTED APPS" FEATURE COACH BY COLOR® INSTRUCTION - SO YOUR USERS, KNOW EXACTLY HOW MUCH EFFORT TO GIVE WHEN RIDING OUR INDOOR CYCLES.

Such easy-to-follow, and engaging coaching takes the category of "virtual" workouts to a new level, and this is only the start.*
